Foreword . . . . to the graduates, departing faculty, students, present faculty and all others associated with the labor of love which transpires daily in the drama of our accomplishments at Edwards High. We all are actors who are unmasked by our peers as they see and still learn to appreciate the real self as everyone continues to mature. So, for this annual we are emphasizing a movie theme and have recorded for you on "film" a candid experience of the 1978-1979 school year.

GRADUATION 79 HONORS

MEMORIES

1979 PEOPLE 79

Most would refer to graduation as the end, and would probably suggest it being put in it's place, at the end of this book. But as in some films, we chose to use graduation as a result, showing what we have become, and then continuing the film as a biography of how it all came to be. So sit back, relax, help yourself to the popcorn and enjoy the movie.

The thrill of teaching is one that only the true teacher at heart will enjoy. But it was also found by some E.C. H.S. students as they participated in student teaching at the area grade schools. All experienced the feeling of the shoe being on the other foot. And found out for themselves to be a good teacher they must put a little extra effort forward. All represented the school well.

LIBRARIAN

A librarian gives up her study hall to type, file, checkout magazines, and checkout and shelve books. But those are just a few of the many things that a librarian does. This year they sponsered a Book Fair and held Contests for books being read in all the area grade schools. They worked to fill orders for more than 80 teachers in the county this year along with processing the books for the whole district and doing biographies for teachers. They also handled all literature books for the English department and processed, covered, and handled more than 2700 books. Mrs. Buntting and Mrs. Wood have some girls to be proud of.

Fifties Day '79

This year we decided to take a trip back into the 1950's when several of our parents went to high school. During the day,students dressed up in long skirts, rolled-up jeans, ponytails, and slicked-back hair. The evening was completed with a fifties dance, which included a snake dance. Those who participated presented a realistic picture of that bygone era.

I'm going to miss this old school for a million different reasons. . .I remember what it was like to be new around here. . .the place seemed a little bigger then, and though I never admitted it, a whole lot scarier!

I remember searching hallways and stairways and auditoriums filled with unfamiliar faces, hoping to find someone to share my confusion with. . .and feeling so grateful whenever anyone smiled.

For a while, I wondered how I was ever going to fit into this strange, super-sophisticated world. . . but now I wonder what I was so worried about. . .the confidence came. . .and so did the fun!

What an assortment of unforgetable characters I've met here! There were classmates I liked right from the start, and those who took a little getting used to. . .There were teachers I survived, and teachers I loved. . .There were upper-class celebrities who awed me with their style, and lower-class innocents who appeared to stand in awe of mine. . .

Most of all, there were the good friends I made here. . .and all the together times we shared. I remember times when we won together, and times when we lost. . .times when we worried together, and times when we celebrated. . .but how do you ever say thanks for a mind-full of beautiful memories?

I remember autumns when all the excitement in the world flashed between two goalposts. . .Winters warm with the glow of our holiday spirits. . .Springtimes that dazzled us with the promise of freedom. . . And long, lazy summer vacations when not doing much of anything was our favorite group activity!

Looking back I'm amazed that so many crazy and colorful things could have happened in just these few years. . .but I'm glad they all happened to me!

It won't be easy saying good-bye to this school. . .to these friends. . .but I have so much more to learn about the world and about myself. . .and it's time to get started.

I only know that wherever I go, whatever I do, the days I've spent right here will always be a really special part of my life. . .A time to remember!

PRESENTS EARLY

We made it. And now we stand at the threshold of a new beginning. For most of us, the coming school year will present itself as a sequel, leaving '79 as just another step of our high school careers. But for some of us, the coming year becomes a whole different story, with new characters, and new settings along with a new decade. We'll experience new worlds, meet new people and explore new horizons. Yet, here, in this book, we'll have our memoirs to help remind us of our past. And anytime we need to see the face of an old friend, remember a time of shared laughter or excitement, we can just sit down and watch reruns of what was perhaps the most beautiful, and most important year of our lives, the year of Nineteen Hundred and Seventy Nine.
